PROFESSIONAL SUMMARY

Java Backend Developer with 4.5 years of experience building and supporting enterprise backend applications across accessibility SaaS, health insurance, and B2B e-commerce. Strong hands-on experience with Java 8/17/21, Spring Boot, REST APIs, microservices, Spring Security, Spring Data JPA, Hibernate, PostgreSQL, MySQL, and Oracle. Experienced in authentication and authorization, database persistence, asynchronous workflows, automated testing, production troubleshooting, and backend modernization. Targeting Senior Java Backend roles focused on hands-on development, reliability, and maintainable delivery.

TECHNICAL SKILLS

Core Backend: Java 8/17/21, Spring Boot, Spring MVC, REST APIs, Microservices

Persistence: Spring Data JPA, Hibernate, PostgreSQL, MySQL, Oracle, SQL, Flyway

Security: Spring Security, OAuth2, JWT, Keycloak, RBAC

Testing & Quality: JUnit 5, Mockito, Testcontainers, Postman, Spotless, SonarLint

Messaging & Services: RabbitMQ, Transactional Outbox, Multi-Tenancy, Eureka

Build & Delivery: Maven, Git, GitHub, Pull Requests, Code Review, Agile, Production Support

Web Processing: Jsoup, Playwright, Selenium WebDriver, HTML/DOM Parsing

PROFESSIONAL EXPERIENCE

Software Engineer | KVAS Technologies

Sep 2024 - Present

Chennai

KVAS Accessibility Platform | Multi-Tenant SaaS Backend

- Develop Java 21 and Spring Boot backend services with tenant-scoped REST APIs for organization, workspace, project, scan, crawler, worker, and rule-evaluation workflows.
- Build persistence layers with Spring Data JPA, Hibernate, PostgreSQL, and Flyway for service-owned data and repeatable schema migrations.
- Implement secure user and service endpoints using Spring Security, OAuth2/JWT, Keycloak service identities, role mapping, issuer validation, and audience validation.
- Contribute to asynchronous scan execution using RabbitMQ, transactional outbox, worker coordination, execution leases, and heartbeat handling.
- Develop secure crawler processing with URL admission controls, SSRF protections, bounded HTTP fetching, redirect limits, Jsoup, and Playwright-based rendered-page acquisition.
- Establish automated unit and integration coverage with JUnit 5, Mockito, and Testcontainers; validated a six-module Maven reactor with 555 tests and 0 failures/errors.
- Support code review, troubleshooting, validation, documentation, and release-readiness activities through GitHub pull-request workflows.

Engineer | GAVS Technologies

Jul 2023 - Apr 2024

Client: Aditya Birla Capital | Chennai

Health Insurance Super App

- Developed Spring Boot microservices and REST APIs for policy management, claims processing, customer servicing, and digital buying workflows.
- Contributed to plan recommendation, quotation, proposal, KYC, document upload, payment, and STP/NSTP processing integrations.
- Improved API reliability through request validation, centralized exception handling, Jackson JSON processing, and JPA/Hibernate persistence.
- Worked with MySQL and Oracle, resolved production defects, and supported Agile sprint and release commitments.

Software Engineer | Powersoft Global Solutions

Jun 2021 - Jun 2023

Client: Olam Group | Bengaluru

B2B E-commerce Development & Modernization

- Contributed to migration of a legacy Hybris/traditional Spring B2B platform toward Spring Boot microservices.
- Delivered backend modules, business logic, Hibernate persistence, and REST APIs using Java and Oracle.
- Built and customized backend functionality with Java, Spring MVC, Spring JDBC/DAO, Maven, SQL, and REST APIs.
- Supported unit testing, peer code reviews, defect resolution, and production support.

EDUCATION

Bachelor of Arts (Geography) | Babasaheb Bhimrao Ambedkar Bihar University

2018
